Naída CI Q Series

Hearing as Unique as You Are

The Naída CI Q Series (Naída CI) sound processor combines state-of-the-art advancements from AB and Phonak, the innovation leaders in cochlear implant and hearing aid technologies, providing improved hearing in a wide variety of listening settings.

With a chic, lightweight design, the Naída CI features fun, fashionable colours, Phonak Binaural VoiceStream Technology™, and **wireless and bimodal streaming capability** for high performance hearing that is always instyle™.

Power on a Budget and on the Go

The Naída CI has a range of battery options to suit all lifestyles

OFF-THE-EAR POWER OPTIONS

Naída CI Power Adapter

- For a lighter weight wearing style, the Naída CI Power Adapter lets you wear the battery off-the-ear.

AAA PowerPak Accessory

- A lighter weight wearing option with long battery life, the AAA PowerPak allows recipients to wear the battery off-the-ear and enjoy up to 183 hours of battery life.

ON-THE-EAR POWER OPTIONS

Disposable Batteries

- Offering approximately 30 hours of battery life, disposable zinc-air batteries are ideal for travel and times when electricity is not available.

Rechargeable PowerCel™ Batteries

- Cost-effective and eco-friendly, rechargeable PowerCel batteries are available in three sizes for up to 25 hours of battery life.

The PowerCel Mini is the latest addition to the PowerCel battery portfolio, offering the same performance and battery life as the standard PowerCel, but in a smaller package.

The graph below illustrates the size, weight, and average operating hours of each PowerCel battery.

¹ Battery life varies depending on the implant type, the program used, the thickness of skin flap over the implant, and the environment the recipient is encountering. The operating hours shown here are average figures and might not be applicable for each recipient.

³ The AquaCase enclosure is compatible only with PowerCel™ 110, PowerCel 110 Mini, and PowerCel 170 Mini Batteries. The AquaMic™ headpiece and AquaMic cable are required for use with the AquaCase enclosure.

Wireless Connectivity

Through AB's close collaboration with Phonak, the world leader in hearing aid technology, Naída CI users have access to the largest selection of proven, high performing wireless accessories in the industry. Designed to suit individual recipient's needs, lifestyle, and budget, these accessories offer solutions for better hearing in challenging listening situations. Recipients can reach out, tune in, and stay connected with wireless streaming from mobile phones, computers, media players, televisions, navigation systems, Bluetooth® enabled products, and countless other devices.

Not all Phonak wireless accessories are available for sale through Advanced Bionics in each geographical area. Please check with your local customer service representative for availability.

⁴ Naída CI Connect is only compatible with the Naída CI Q90 sound processor and it requires PowerCel 170 battery.

Headpieces

designed for **comfort, convenience, and style**

There are two headpiece options for use with Naída CI sound processors: the Universal Headpiece and the AquaMic™ headpiece. Compatible with all AB processors, the Universal Headpiece has been developed for use during everyday activities and features a sleek, low-profile design. Fully waterproof for use with the Naída CI sound processor and AquaCase™ enclosure, the AquaMic headpiece is designed for hearing while swimming, bathing, and showering. Headpiece caps and cables come in a variety of colours to choose from for mixing and matching or blending in with hair and skin.
